Comments	<input type="text" value="I object most strongly about the planned clay pit/waste recycling in Pallinghurst Woods. Pallinghurst Woods is classified as ancient woodlands and has a diversity of wild flowers, trees and animals. It has been enjoyed as a recreational area for walkers and riders for many years. With a large number of lorries using the forest roads it will cause a great deal of damage to the trees and flora and fauna especially as it is proposed to go on for many years. The roads which would be used are not suitable for large lorries and the lorries will create hazards for walkers, cyclists and motorists. It will cause a great deal of noise and disruption to the local residents."/>
