Address	<input type="text" value="SANSOMES VIEW, FURZEN LANE, FURZEN LANE, HORSHAM, RH12 3AR"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>Dear sir/madam.</p> <p>I am extremely concerned about the potential for increased traffic along Loxwood Road as a result of this proposal. I work at a business along this road and use it regularly to travel between sites in Tismans Common, Kirdford and Wisborough Green, so the road is very familiar to me. The road is very popular with cyclists, horse riders and more recently with joggers. There are numerous bends along the road and the road width is quite narrow in places. One of our lorries was in collision with a skip lorry earlier this year on one of these bends. The lifting mechanism on this lorry smashed the wing mirror of our vehicle, resulting in our driver having to go to hospital to have glass fragments removed from his face. The skip lorry driver failed to stop but our dash cam captured the collision. Please, please reconsider this proposal as I believe there are many other well documented reasons that the location is totally unsuitable for such a business. There must be other sites that would cause far less concern regarding the potential dangers and the impact on such a naturally beautiful area.</p> <p>Many thanks, Ian Colven.</p>
