Comment for planning application WSCC/030/21

Application number	WSCC/030/21	
Name	Carol Lomas	
Address	FRESHWOODS, 2, FRESHWOODS, HORSHAM, RH12 3BZ	
Type of Comment	Objection	
Comments	I wish to strongly object to this application for the following reasons:- 1 It is inconceivable that this development will be approved as it will destroy this greenfield site which includes an area of pristine woodland which is remote from the major road network. Access for 42 HGV truck movements on the minor roads, which is a 300% increas, will not only be a severe safety risk to pedestrians and other road users, but will lead to enormous noise and air pollution. 2. There can be no justification for destroying this area beautiful area which is so tranquil. The development goes against the two adjacent area local plans as well as the Chichester District local plan for development in rural areas. The National policy states that waste sites should be sited in built up areas or brownfield sites. 3 The WSCC minerals monitoring report indicates that there is no demand for additional brick making clay. The county has 25 years of reserves. 4 Without the clay quarry there is no justification for a waste site in this unsuitable location. The plan does not enhance, protect or compliment the natural environment. 5 The development will result in an increase in net carbon emissions from the burning of fossil fuels and the removal of the tree canopy by felling. In summary ithe planning department has a cast iron case for refusing this application. Carol Lomas
