Objection

I wish to voice my objection to the application for this proposed CMRF near Loxwood. I am very concerned about the prospect of any increase in the traffic through the village, especially HGV traffic. Loxwood is a small village where families bring up their children in pleasant rural surroundings and the industrial nature of such a development is not, in my opinion, compatible with our village. It would have a detrimental effect on both physical and mental health due to pollution - both air pollution and noise pollution. I whole-heartedly ask that this planning application be denied permission. Sincerely, Julie Park.
