I rigorously object to the Pallinghurst woods application due to the impact that this will have on our village and surrounding areas. The application process i believe grossly underestimates the impacts and clearly this does not benefit anyone other than the land owners bank balance. My objection is 3 fold: 1) This is a greenfiled site and therefore does not meet the National policy of waste sites being located in built up areas or brownfield locations. 2) Noise, light and air pollution caused by both the clay extraction and waste recycling plant which is not needed in West Sussex as the county already has enough coverage located at suitable sites. 3) Traffic generation - the villages affected are already subject to dangerous roads and the increased traffic will have a severe impact on the safety of our roads for other cars, cyclists and pedestrians. Thank you for reading.
