Comments	<p>I wish to strongly object to this proposal. For over 40 years I & many others have walked in & enjoyed the tranquility of these woods, sometimes I have heard a nightingale. This bird will not stay around.</p> <p>These proposals are not sustainable, the clay is not needed locally, nor is the waste site, all this will cause noise & pollution to the area.</p> <p>I am particularly concerned about the destruction of woodlands this will release more CO2 into the atmosphere. As a community we are trying to be greener, this proposal is the opposite.</p> <p>The area is low lying & in extreme weather can flood. The proposed development can only make matters worse.</p> <p>The Loxwood Rd is narrow over the stream & there are blind bends. The Y junction onto the A281 at Bucks Green has poor visibility. We don't want more HGVs on this country road.</p> <p>This proposed industrial-type site is simply not appropriate to this rural area.</p>
