

Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Tash Heydon"/>
Address	<input type="text" value="BROOKBRIDGE HOUSE, DURBANS ROAD, DURBANS ROAD, BILLINGSHURST, RH14 0DL"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I strongly object to this application for many reasons, however, this is a few:</p> <p>There is no demand for additional brick making clay as WSCC have more than 25 years of reserves. Without the mineral site there is no justification for a waste site at this unsuitable location. There is currently sufficient capacity for construction and demolition waste in West Sussex in established locations that are far more suitable.</p> <p>This is a greenfield site - National policy states that waste sites should be sited in built up areas or brownfield sites. The application includes a 15,000 sq ft building amid pristine and ancient woodlands. Site access for HGV's will run on alongside and across public right of way routes regularly used by members of the public. They will close one of the footpaths for 33 years. There will be an increase in net carbon emissions and it will have a major impact on local wildlife and species. The damage to our local biodiversity is not justified in this application. The increase in HGV traffic will have a severe impact on our local villages. There will be a significant increase in HGV traffic volumes along Loxwood Road presenting a severe safety risk to existing road users.</p> <p>The negative impact on the local communities has not been considered and is certainly not warranted.</p>
