## Comment for planning application WSCC/030/21

Application number	WSCC/030/21	
Name	Andy Stapleton	
Address	OLD HOUSE, RICKMANS LANE, RICKMANS LANE, BILLINGSHURST, RH14 0NT	
Type of Comment	Objection	
Comments	This proposed development is utterly inappropriate for this rural idyll. This beautiful woodland is home to numerous rare species including bats, orchids, dormice and both tawny and barn owls. The proposed vehicle movements will be destructive to village on inappropriate roads. Given the ultimate revoking of the planning of the bio digester at Crouchlands Farm in the neighbouring village of Plaistow, for reasons of traffic movement and pollution including the danger of run-off into local water courses, this should be refused for similar reasons except that in the case of this application the River Arun is in much closer proximity, therefore the water course pollution risk is much greater and any pollution event would cause much wider devastation. It would cause the same traffic chaos on similar roads.
