| Objection                                                                                                                                                                                                                                                                                                                                                                                          |                                                                                                                                |
| The idea of running Multiple HGVs loaded with industrial waste down a farm field track / footpath into a tranquil woodland habitat is ridiculous and irresponsible. It will pose a very real danger to the public using the footpath, livestock in the fields and the surrounding environment. The site is totally unsuitable for the proposal and the application should not even be entertained. |                                                                                                                                |
|                                                                                                                                                                                                                                                                                                                                                                                                    | Mark Harrison  HULLBROOK BARN, LONG  Objection  The idea of running Multipatranquil woodland habit using the footpath, livesto |
