Comments	<p>I object to this application on the following grounds:</p> <p>Traffic generation/highway safety - we use the Loxwood Road regularly as a cycle route for leisure trips. It is a narrow road and in places hardly wide enough for 2 cars to pass, and vehicles tend to travel at high speeds. The trucks proposed will pose an unacceptable hazard to cyclists - especially in the narrower parts and the numerous corners on the hills along the route. We have had experience of similar trucks on Lynwick Street over recent years which has been very frightening. The roads will deteriorate at the edges in a similar way as has happened on Foxbridge Lane in Ifold when the Crouchlands trucks were operating. The roads were not designed to take heavy trucks, and the resultant potholes will lead to cycling accidents.</p> <p>Impact on the natural environment - this is an area of ancient woodland and associated fauna and flora which will be lost. The site will result in an increase in net carbon emissions - something we are all being encouraged to avoid.</p> <p>Suitability of use for the area - this is an area crossed with numerous footpaths and bridleways used by many people. To have trucks crossing these paths will ruin the rural landscape and be hazardous for the elderly and hard of hearing and horses and dog walkers</p>
