Comments	<p>My wife and I have lived in Loxwood for a long time. We love the area and take our dogs on exercise over Pallingshurst Woods regularly, throughout the year. The Woods are very special, to us as nature lovers and dog walkers, as well as to many friends and like-minded folks who enjoy the benefits of being out in the countryside. We understand that there are other places to go walking, but the Woods are unique and irreplaceable. Ancient woodland like Pallingshurst needs to be preserved and cherished - it's becoming rarer. Industrial facilities should, and can, be located on brownfield sites.</p> <p>Thank you.</p>
