Comment for planning application WSCC/030/21

Application number	WSCC/030/21	
Name	William George Dick	
Address	Oaklea, Vicarage Hill Loxwood, West Sussex	
Type of Comment	Objection	
Comments	As a greenfield site, I consider this to be a wholly inappropriate proposal for a peaceful rural area a its surrounding roads, villages and towns. We are being encouraged to save woodland areas and to plant more trees, yet this scheme is doing the opposite and will disrupt and partly destroy a wildlife habitat. The large number of HGV movements will cause more congestion and create danger on local roads and narrow country lanes, together with noise and fuel fumes pollution. I can see nothing positive to the local community or the environment in this application.
