Objection

I strongly object to the planned development in Pallinghurst Woods on the grounds that the increased HGV traffic will have a severe impact on the local village, environment and tranquillity of the area. We live in Rudgwick and twice a day travel along Loxwood Road to drop off/collect our daughter from her school bus stop. The significant increase in HGV traffic volumes will present a severe safety risk and additional congestion for existing road users. From the correspondence I don't believe this has been fully assessed. Loxwood Road is a narrow and quiet thoroughfare, which in no way will be able to handle the increase volume of HDV traffic. The development will lead to a sharp increase in congestion and severe risk to other road users (including cyclists) and pedestrians. Not forgetting about the increased noise, pollution and daily disturbance to the residents and wildlife of the area. The overall damaging effect on the local landscape and character cannot be under-estimated.
