Comments	<p>This will destroy a beautiful, peaceful woodland and once they've done that they can't turn back the clock. It will cause noise, pollution, waste, an increase in carbon emissions and traffic - and to have large numbers of HGVs using the narrow country roads around Rudgwick, Bucks Green and Tismans Common will be dangerous.</p> <p>Cyclists could be killed while cycling down the country roads with huge HGV coming so close to them. That will be on the council if a disaster was to happen like that, when we could all see it coming.</p>
