Objection

I am writing to object about this planning application on a number of grounds. Guidelines state that waste recycling should be developed in brownfield sites whereas the proposed development is on a beautiful greenfield site much loved by local residents for its biodiversity and ancient woodland. As we connected more with our local areas during the pandemic the woodland became even more important for local residents as somewhere to connect with nature and rebalance mental health. To have this now taken away to be a refuse site is a disgrace. The road to Pallingshurst woods is quiet and used actively by cyclists and walkers. If 33 Hgv trucks start moving along it the increased noise will be felt by all local residents as well as increase risks to safety. This narrow country Lane is not designed for the proposed volumes of traffic the site will result in. Finally there is no demand for clay bricks locally so why destroy such a beautiful site for the sake of monetary gain for a few- local residents will experience only loss if the plans are approved. For these reasons I object to the planning application. Yours sincerely Keren Hannyngton
