Comments	<p>This proposed development is completely out of character with the immediate environment and will severely negatively affect the tranquility and the use of footpaths and walkways which are and have been used for many many years by the public</p> <p>There is no necessity for additional clay as WSCC have more than 25 years of reserves</p> <p>There will be a very significant increase in the numbers of HGV movements along local roads which are not suitable for this volume of large vehicles</p> <p>These vehicle movements will also have a severe negative impact on the local villages and hamlets causing noise and air pollution particularly dust and exhaust and also traffic congestion</p> <p>Please reject this application</p> <p>The proposed site is a Greenfield area totally unsuitable for this proposed development</p>
