## Comment for planning application WSCC/030/21

Application number	WSCC/030/21	
Name	James janion	
Address	Ifold	
Type of Comment	Objection	
Comments	Dear Sirs I find it incredible that such wonderful land with a diverse eco system is even bring contemplated for destruction and turned into a corporate venture. Clearly with no care for the surrounding land or community. There are a number of better options for this space non more so than allowing it to continue to thrive as a place of beauty, enjoyed by many people and wildlife in its rawest state. To attempt to bring in hgv vehicles, processing plants, heavy machinery, noise, pollution, destruction is simply a waste of nature's gift to us all. There is an onus on us to preserve such space as it is and preserve the community that surrounds it. This is a beautiful part of England, reveared by many who do not have such access to wonderful Areas of natural beauty that to turn it into a money machine, damage the environment, wildlife and a community is an injustice which must be stopped with reasor logic and common sense prevailing. I do hope that with all these objections it is clear to see that not only is this not wanted, it is not required by anyone other than the owners who see an opportunity to make money at all costs.
