Comments	I believe that the roads around the site are highly unsuitable for HGV lorries, they are narrow and close to houses between Loxwood and Rudgewick. The noise of the traffic along this road will be constant and the grass verges will be damaged . It's a Greenfield site with a beautiful woodland that is enjoyed by many with their dogs and children. The footpath will be closed for over 30 years so will affect a whole generation!! Although you say that the lorries will use the 281 from Bucks Green, what is to stop them from coming back into Loxwood and Alfold to get to the 281? I think this is totally unacceptable for the residents in these villages but more so Bucks Green who will be completely disrupted.
