

Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="John Peters"/>
Address	<input type="text" value="14 TATHAM COURT, CHIPPENDALE ROAD, CHIPPENDALE ROAD, CRAWLEY, RH11 9LW"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I am strongly objecting to this application on numerous fronts. The whole plan goes against logic and common sense. Not only does it impinge on the local environment of beautiful woodland it is also situated in an area totally unsuitable for the proposed use, the loss or disruption to public access routes and the introduction of HGV vehicles to this tranquil environment.</p> <p>The road network to and from the proposed site is totally inadequate for the number envisaged HGV use. As a regular user of these roads I have first hand experience of not only the size of the local road network (There is no way 2 large HGV's meeting in opposite directions could pass safely) but the overall condition of the roads that is appalling, it is dangerous now for Cyclists, what on earth will it be with additional numerous HGV use? I have regularly complained about the potholes that are always appearing on these roads.</p> <p>From what I have seen and looked into there is no demand for this development and the positioning of this proposal is totally misplaced, as we are always led to believe, every possible green space should be protected and this proposal should be rejected by WSCC. as totally unsuitable.</p>
