

Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Nicola Tremlett"/>
Address	<input type="text" value="JOHN WISKAR DRIVE, 24, JOHN WISKAR DRIVE, CRANLEIGH, GU6 8RA"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I Strongly Object to this Planning Application, Please do Not Destroy more of our Beautiful Countryside.</p> <p>Daily I walk with my Dogs in Pallingshurst Woods, such a Tranquil place to walk, so much Nature and Wildlife, listening to Birds singing as I Walk-What a Major Impact this Clay Pit and Recycling Centre would have on Nature, Wildlife and their Habitat-It would Destroy it-It would disturb the Badger Set Near the layby, destroy the mature Trees where Rare Bats Roost and destroy the magnificent Bluebell Woods (Bluebells protected by The Wildlife and Countryside Act)</p> <p>Pallingshurst Woods is a most Unsuitable Location for a Clay Pit and Recycling Centre - Access to the Site will be via very Narrow, Winding Country Roads , Increased Traffic along these lanes including HGV Trucks (42 a day)travelling To and From the site will be a severe safety risk to other existing Road users, Pedestrians, Cyclist and Horse Riders - these HGV trucks entering and exiting the site on a Bend- An accident surely to happen</p> <p>The Development of a Clay Pit and Recycling Centre will increase Carbon Emissions-Machinery and Diesel Generators creating Pollutants and of course the Felling of the trees-more damage to the Environment</p> <p>The Loss of the Parking in the Layby and the Closure of Footpath 792-1 will be such a loss- stated as a temporary closure 33 Years ? When it Re-opens if still Alive I will be 88 years old !</p> <p>Please Reject this Planning Application- Do Not allow this Remote and Tranquil ancient Woodland to be Destroyed</p>
