Comments	<input type="text" value="I strongly object to this application. This is a tranquil, unspoilt woodland that is wholly unsuitable for a waste recycling and clay extraction facility that will irreparably damage the ancient woodland area and diminish the wildlife that flourishes here. HGVs in such numbers are totally unsuitable for the local roads and will create a huge danger to the local population using the footpaths and lanes surrounding the site. More suitable locations for such an industrial operation should be sought."/>
