## Comment for planning application WSCC/030/21

Application number	WSCC/030/21	
Name	Hatim Dungarwalla	
Address	80 Pine Walk Surrey	

Type of Comment Comments

I object to the proposed development on the following grounds:

## **Environment:**

Objection

I regularly visit family in the area and have been going for walks in woodland for many years. It will be catastrophic on the environment and tranquility of the area. The impact on local wildlife such as the established badger sets and endangered bats will be terrible. The large building which will be built will spoil the landscape and not fit in with the area at all.

## Building on a Greenfield site:

It doesn't make sense to build the proposed development on a greenfield site and my understanding is that waste sites should be built on brownfield sites.

## Traffic:

The increase in HGVs will also cause more accidents on the road. The road is not designed for this kind of traffic. The danger to road users, parked cars, pedestrians, horse riders and bike riders will increase significantly.
