## Comment for planning application WSCC/030/21

Application number	WSCC/030/21	
Name	Bryn Tinton	
Address	BRIDGE ROAD, 1, BRIDGE ROAD, HORSHAM, RH12 3HD	
Type of Comment	Objection	
Comments	<ul> <li>I strongly object to this planning proposal for the following reasons:</li> <li>An increase of HGV traffic will have a negative safety impact on local inhabitants, especially those living in Bucks Green, Tismans Common, Loxwood and Rudgwick. The Loxwood road is narrow and has several blind bends thereby increasing the risk of accident especially if 40+ HGVs use the route daily.</li> <li>The development will have significant impact on wildlife habitat.</li> <li>The proposed site operation would cause significant noise disturbance particularly to current users (walkers, horse riders etc) of this current tranquil woodland.</li> <li>The proposed development does not conform to the neighbourhood plan of Loxwood nor to the Chichester plan for rural development.</li> <li>The proposed site is in a greenfield location whereas National policy states that waste sites should be in built up areas or on brownfield sites. It is also not clear exactly what waste will be processed.</li> <li>It is understood that there is no demand for additional brickmaking clay for at least two decades due to existing reserves.</li> </ul>
