Comments	I cannot believe that such a proposal is being considered.
	There are so many reasons why this proposal is wholly unsuitable.

My family and I use these woods every day, our children love exploring the woods, and looking for wildlife (which there is in abundance) the thought of them not being able to do this safely for the rest of their childhood is heart breaking. These woods kept us sane through the pandemic, and are so important for peoples mental & physical health.

The proposed access route is an accident waiting to happen. I frequently travel on this road and fail to believe that 2 HGV's could safely pass, in fact my own car was damaged by an oversized vehicle travelling towards me on this very road. It would only be a matter of time before a fatality occurs.
