Comments	<p>I strongly object to this application as it would destroy this beautiful ancient woodland, enjoyed by so many.</p> <p>The amount of destructive traffic on our narrow roads would make the surrounding roads very dangerous to other users including pedestrians and increasing carbon emissions and having a huge detrimental impact on wildlife. I can see no benefit to the local community only destruction of a greenfield site when it should be on a brown field site and with no demand for such a waste site. The whole plan would seem to have nothing but a severe detrimental affect on farmers, listed buildings, trees and hedgerows, roads not to mention privacy and the dust and odour and noise it would cause.</p> <p>This is a beautiful tranquil area of West Sussex, so please don't ruin it.</p>
