Type of Comment	<input type="text" value="Objection"/>
Comments	<p>My strong objection is based on the following:</p> <ol style="list-style-type: none"><li>1. This would destroy a site of Ancient Woodland which provides an irreplaceable habitat for flora and fauna</li><li>2. According to National Policy, waste sites should be on on brownfield sites or in built up areas, not where there they negatively impact farming activity.</li><li>3. There is a proposed closure of a Public Footpath and HGVs will use Public Rights of Way</li><li>4. There are major safety problems with HGVs entering the A281 at Bucks Green.</li><li>5. The volume of HGV traffic on Loxwood Road is unacceptable for a road which is a B Road and not built for heavy traffic.</li><li>6. There is no demand for additional brick-making clay,</li></ol>
