

# Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Pauline Bell"/>
Address	<input type="text" value="WOODEND, HORSHAM ROAD, HORSHAM ROAD, DORKING, RH5 5RL"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I object to this application for the following reasons This is a greenfield site, therefore the application for a waste site does not comply with National Policy. The proposed development would severely and detrimentally impact this area of woodland for everyone who uses it and the wildlife living and growing within. The proposed clay pit does not meet local or National requirements and there isn't a demand for the type of clay which would be extracted. Access to and from the proposed site is totally unsuitable. The proposal does not demonstrate any benefits or protection to this rural area. There is no consideration given to the numerous detrimental affects placed on the local community by this proposal. In fact there are no positive benefits proposed for this community. I believe this planning application should be totally rejected due to its inability to comply with local and National guidelines for development in a rural area, the ill thought logistics of this plan and no consideration being given to the impact on the local community.</p>
