Comments	<p>I was born and have lived in this area for 83 years and wish to object strongly to this planning application for the following reasons.</p> <ol style="list-style-type: none">1. There is no demand for clay as there are already 25 years of reserves in this area. It would not make sense to transport it beyond our local brick making factories.2. This is an unsuitable location for a waste site sitting in the middle of ancient and unspoiled woodland. It is a Greenfield site and used by many people for walking, riding and cycling. It is full of animals, birds and insects as well as beautiful trees and flowers which need to be protected. There could be possible pollution into the ancient brook that runs into the river Arun.3. The increase in traffic and the size of the vehicles would severely impact on the local villages making the Loxwood Road a real hazard to travel along as well as causing noise and pollution. I often travel along this road and even at the moment it is dangerous when meeting oncoming traffic. The road is not wide enough for large vehicles.
