Objection Objection

I live just up the road from Pallinghurst woods and every day I walk a small portion of Loxwood road from my driveway to the bridleway with my 2 very young children and my dogs, we also ride our horses along there as well and the amount of lorries and extra associated traffic would make this impossible. I also regularly walk up in the woods themselves and it is such a lovely safe place for my family to explore and again that would be impossible to continue.

The roads infrastructure can not feasibly take the amount of lorries proposed, it will break up the already fragile tarmac and cause even more damage and pot holes to what is essentially a country lane not a highway for heavy loads of that quantity.
