

Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Judy Martin-Jenkins"/>
Address	<input type="text" value="ARUN COTTAGE, LOXWOOD ROAD, LOXWOOD ROAD, HORSHAM, RH12 3BT"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I understand that there is no demand for Clay in West Sussex & therefore I see no need for a Claypit to be dug & therefore no reason for a waste/recycling site to be established.</p> <p>Pallinghurst Wood is a greenfield site not suitable for waste recycling & the proposed buildings connected with it. There are no other buildings in the woodland.</p> <p>The HGVs will be driven 1.5km through Ancient woodland on a track which will have to be widened & strengthened to the detriment of the flora & fauna surrounding it & rare species of wildlife which have been identified throughout the wood. The proposed wheel wash & office will be sited in historic woodland.</p> <p>The lorry route to & from the woods to the A 281 is 3.25km - more than the recommended distance. This is along a lane which is entirely unsuitable for the proposed very heavy traffic movements. It is a narrow, winding lane & has at least 2 dangerous bends. It is a country road used by pedestrians, cyclists, horse riders (there are public bridleways leading directly on to it) & school buses collecting & dropping off children. At the narrow West junction with the A281 there is a bus stop & cars are often parked semi blocking the junction to the East. There is a serious risk to safety & also to damage for the listed houses along the route, close to the lorry movements.</p> <p>The woodland has several very well used PROWs which will be severely affected by the lorry route along the track & the proposed site. These have been enjoyed for many years & are good for the health & wellbeing of those who use them in the tranquil surroundings</p> <p>For these reasons & that the plan will not bring any benefit to the local community, I strongly object to this application & I sincerely hope it will make no further progress.</p>
