Comment for planning application WSCC/030/21

Application number	WSCC/030/21	
Name	Karen Ramsay	
Address	Highlands, Rickmans Lane Plaistow West Sussex RH14 0NT	
Type of Comment	Objection	
Comments	This development is inappropriate for this rural area in many ways. The roads surrounding Loxwood are not suitable for multiple 32 tonne HGVs, not least the affect on road surfaces, the impact on the trees, hedgerows and wildlife along the proposed route. The width and the turning onto the A281 is difficult to navigate in a car at the best of times. This road is regularly used by walkers, cyclists and horse riders. It represents a huge risk for highway safety that I believe is being underestimated. Loxwood is a lovely rural village and many locals enjoy the tranquility of the woodland and the wildlife for recreational use. This development will undoubtably ruin many local people's lives with the noise, disturbance, light from the 15,000 sq ft building and dust for years to come. It is incredibly sad that anyone could conceive that these beautiful woodlands would be an ideal site for a large and incongruous industrial site and building. It will neither enhance, protect or compliment the natural environment. It will dominate the village and blight it for a generation. Please, please reconsider this application for the sake of the local community. This proposed development is entirely inappropriate in such a rural setting, and should be refused.
