Comments	<p>I STRONGLY object to this planning application.</p> <ol style="list-style-type: none"><li>1. Environment - the development will have a significant negative impact on local wildlife and species - including bats, badgers and various species of birds.</li><li>2. Demand for Clay - no demand for more brickmaking clay, sufficient supplies locally, West Hoathly brickworks closure due to lack of demand.</li><li>3. Traffic - significant increase in traffic will pose a safety risk for existing road users and highway safety issue from HGVs entering and existing Loxwood Road.</li><li>4. Location - this is a greenfield site. Waste sites should be in public areas or brownfield sites.</li><li>5. Tranquility - the area is remote and peaceful. Light pollution will be created in an area of dark skies. Bird song would be lost and replaced by loud noises from tracked vehicles, excavators, HGV movements, skip lorries.</li></ol>
