Comments	<p>This application is totally not in keeping with the locality. It will be majorly disruptive to the community as well as to the natural surroundings.</p> <p>The local roads are completely inadequate for the heavy vehicle movements that will be necessary to serve the site.</p> <p>Local bridleways will be massively affected. As a horse rider and someone who runs on these public rights of way I am very unhappy about these being effectively made unsafe to use if this application were to be permitted.</p> <p>I strongly object to this application.</p>
