Name	<input type="text" value="Mike Gibbons"/>
Address	<input type="text" value="FARLEA, BILLINGSHURST ROAD, BILLINGSHURST ROAD, BILLINGSHURST, RH14 0DZ"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I currently live in Wisborough Green and previously in Ifold over a period of 48 years and know the site and surrounding area very well.</p> <p>Whilst I have seen changes steadily over that period of time I cannot imagine the appalling effect this proposal will have on the traffic on our country lanes both in terms of safety and noise in our quiet rural villages.</p> <p>Our area is not suited to such a large project and a similar problems and issues arose when the Bio Gas plant grew and grew in Plaistow with its lorries and noise.</p> <p>The removal of trees and degradation of habitat at the proposed site is contrary to local and national environmental policy when we are trying to control CO2 emissions.</p> <p>The whole character of our area will be blighted by commercial vehicles and support people for decades when we were making progress with such rural projects such as the Wey and Arun Canal based in Loxwood.</p> <p>This large area will have constant disturbance which will push out many animals from the haven they have lived in and we as residents have enjoyed for many years.</p> <p>In view of the above I would urge the Council to not allow this ill considered proposal to proceed.</p>
