Objection

This application by Protreat Ltd for a 'Clay Quarry' is after one thing, the opportunity make a big hole in the Sussex countryside so they can fill it with wast and make a lot of money for Protreat and the land owners. The demand for clay in the UK is non-existent and this venture well bring no jobs or earnings to locals. It will pollute and contaminate the land, water ways and roads of this lovely part of Sussex. The strain on small sometimes single track roads that are used for the (school run) locals to get to and from work will be even more put upon. Big lorries with tons of wet clay dripping water onto the roads will be of a very great danger to all, not just to kids on bikes going to/coming home from school. I can imagine the impact of a child, mum, older person or hiker being killed or injured within this community because of this application for a clay quarry being granted by this council and the comings and goings of HGVs within this much loved countryside. To say NO to this application is the only way to help keep this green and pleasant land 'Green and Pleasant' something very much in the media now days and very important to me, my family, friends and the people of this county.
