Type of Comment	Objection
Comments	This is a greenfield site, national policy states that waste sites should be sited in built up areas or brownfield sites, not areas of beautiful woodland, habitat for hundreds of native species. I am also concerned about the HGV traffic on this unsuitable road, it is already unsafe in places, noise dust and pollution would be horrendous. It would have a major impact on local wildlife habitat and species, some of the first trees due to be felled are identified as being roosts for four threatened priority bat species. There is a severe road safety risk. There are unacceptable conflicts with adjacent and established farming activity. This is not a suitable development for this beautiful rural area.
