Comments	<input type="text" value="This is a beautiful natural area of woodland and habitat enjoyed by a large number of our community and wildlife. This plan would decimate the area and deny that enjoyment and exercise. It is environmentally unsound adding high volumes of traffic to roads that cannot handle that. Economically it makes no sense either as there is a huge surplus of clay and bricks and high levels of employment in the area. Overall this is a terrible plan which has no merit."/>
