---

Dear sir or madam,

I am writing about the Loxwood Clay Pits. I am writing to address my objection to this project.

My concerns are that it will increase traffic in the small country lanes leading up to Loxwood and rudgewick. Which will make it difficult for me to get to work in rudgewick. Also the lane leading to the site will cut through footpaths which cyclist's and dogwalkers use frequently. This will be dangerous for the people who use this route. You will also be cutting through water which will contaminate the water for the local wildlife who use the water to hydrate.

The site itself is near a farm which will disturb the animals, which can change their temperament which can be dangerous for the animals and the people who work with the animals.

Also a threatened species of bat live in that area and are protected. As they are endangered if this clay pit goes on you will wipe out an endangered species of bat. You will also be disturbing wildlife who inhabit the area and surrounding areas. Wildlife who have inhabited the areas for their entire lives will be ripped out of their habitat and killed.

I do hope that you will put a stop to this development. It will cause a lot of disruption and problems for a lot of people and creatures. I know I have only listed environmental issues. But there really are a lot of issues with this whole project and not really a good enough reason for the project to continue.

Sincerely

[REDACTED]
