Dear Sirs

I would like to object to the proposed development In Pallinghurst Woods

The national and local level clay requirements appear to be met without this development.

This is a greenfield site - national policy states that waste sites should be in built up areas or brownfield sites.

Site access for HGVs will run on , alongside or across public right of way routes regularly used , giving rise to severe health and safety concerns.

Footpath 792-1 is proposed to be closed with a significant diversion , at great inconvenience to users.

This is a highly stressed area for water and the development would increase this problem.

The increased HGV traffic would have a severe impact on the local villages - Bucks Green , Tismans Common and Rudgwick

The movement of HGVs will result in disruption and loss of parking at the lay-by
