

9<sup>th</sup> August 2021

Dear Sirs,

Planning Application number

WSEC/030/21

development

I object to the area proposal for ~~development~~  
as unsuitable for a number of reasons.

This would be on a greenfield site where ancient woodland and replanted woodland would be destroyed to make access to the site which would be highly dangerous crossing a bridleway and public footpaths and would also cause great disturbance to many wild life species.

In no way could the horse road to Bucks Green road be suitable for the heavy movement suggested be safe. The road is barely wide enough for two large cars (eg 4x4s) to pass safely. The road is unrestricted in parts and 40mph is only just safe.

The layout should not accommodate any work vehicles which should be on the site, and there is no watercourse for any wheel wash equipment.

Yours faithfully
