Planning Nos W.SCC/030/21

Dear Sir/Madam.

Having walked daily in the woods for 40yrs I would be saddened to see these untouched ancient woodlands changed to an industrial site.

As a resident on hexwood Rd the traffic is a major issue. This is a "B" Rd not intended for heavy vehicles and the volume of traffic is high at the moment without 42 exits H.G.U.S. As I drive this road daily the proposed redesign is a traffic nightmare.

Yours faithfully
