Comment for planning application WSCC/030/21

Application number	WSCC/030/21	
Name	Jenny Morgan	
Address	WESTHOLME FARM, BILLINGSHURST, RH14 0QJ	
Type of Comment	Objection	
Comments	I have lived in this area all my life and strongly object to the proposal. Pallinghurst Woods are one of the most tranquil, peaceful places, enjoyed by the whole community. There surely must be more suitable locations if another waste site for construction & demolition materials is really required within West Sussex, not one which is a greenfield site with no industrial activity at all. I also object to the 300% increase in HGV movements, along with their associated pollution on our rural roads, these are not designed for, or suitable for, such frequency of traffic. This will bring more risk to other road users and I fail to see how the applicant can safely mix people and HGVs as they travel over and along the well used PROW. Hopefully the Council will act in the interests of the many local residents, rather than the few who serve to gain from an approval. Please reject this application.
