Objection

This application beggars belief and is utterly unacceptable in several areas.

It is unworthy of WSCC and the planning officers time and the tax payers money on so many fronts.

- 1. The increase in lorry movements and traffic on already over crowded roads that are unsuitable for the purpose is both obvious and dangerous.
- 2. In a world where limiting our impact on the environment is discussed daily, this massacre on the environment is totally unjustifiable.
- 3. Socially where much emphasis is put on individuals mental health this will have a devastating effect on local residents in villages for miles around this area. Just because this is on the fringes of WSCC's jurisdiction should NOT lead to an "out of sight out of mind attitude".

This is a money making exercise pure and simple with no regard to the environment or local residents. It's impact is environmentally monumental, the specifics of which are listed by many other of the 200+ objections, and frankly the application is an absolute disgrace. It should be thrown out without hesitation.
