Comments	<p>I would like to lodge my objection to this planning application.</p> <p>My principle objection relates to the increased volume and type of traffic.</p> <p>I am a regular user of Loxwood Rd as a cyclist and a walker and fear it will only be a matter of time (and unfortunately not a long time) before a major incident would occur with the additional vehicles and particularly the HGVs. The road and local hamlets/villages will be significantly compromised if this application goes ahead.</p> <p>Further more the overall increases in pollution, air and noise, will impact both residents and wildlife in the immediate and surrounding area.</p> <p>I do not t believe this should even be considered on a greenfield site, particularly where there appears to be no immediate need for the materials or waste site.</p>
