Comments	<input type="text" value="I strongly object to this Planning Application. These are woods that need protection and the destruction of trees and creation of clay pits would be appalling. Even worse the consequences of a waste disposal site that would pollute the environment and involve heavy vehicles using country lanes on a regular basis. Such traffic destroys the road surface and is totally against the concept of living in a quiet rural area. Such a planning application should be turned down by those appointed to represent the people of Sussex."/>
