Comments	Lox wood clay pits planning I would like to register my total disapproval of the proposed planning application for the sighting of a recycling plant and clay pit in Pallinghurst Woods, Planning Application Number WSCC/030/21. Although I do not live in the area that will be affected by the proposal our Daughter and her Husband and three children live in Rudgwick and we visit regularly and enjoy the woods and surrounding countryside immensely and it is a beautiful ancient woodland that should be treasured. This development is totally out of context with the area and should be stopped on the grounds that there is no need for clay in the area, there is no need for a recycling plant and that the resulting damage to the environment will last for many years to come. This is another example of Corporate greed running roughshod over the wishes and needs of local residents and destroying pristine environments just for the sake of a quick profit!
