I believe there is not demand for bricks as WSCC have more than 25 years in reserve2. The site is a greenfield site accessed on and across a public right of way, therefore a severe safety risk for walkers, especially children, and near a residential school, which will be effected by dust, pollution and noise and therefore a health hazard, not forgetting the impacy on the environment3. There will be a significant amount more traffic on the Loxwood road, which I believe is unsuitable for HGVs. This will present an unreasonable risk to car drivers and particularly for the 3 or 4 horse establishments on the Loxwood road. One of the horse establishments referred to is the charity Riding for the Disabled which runs a carriage driving group from Tismans Common and use that road with their disabled drivers. The big lorries and extra traffic would cause a problem with the slow moving carriages and, therefore, a heightened risk of accidents
