| Comments | <input type="text" value="I object to this application as a naturalist because of the effect it would have on the population of Nightingales and other birds which breed in the surrounding woodland. I have listened to the Nightingales each Spring for many years at this site and it would be a tragedy if this proposed application caused a further decline in numbers of this already nationally declining species. I also object as a local resident because of the effect of the increase of HGV traffic which would ensue if this application goes ahead."/> |
