Comments	<input type="text" value="As residents of Loxwood Road, we are very concerned with the proposed development in Pallinghurst Woods. The Loxwood Road, which will carry all the traffic from the site, is a narrow country lane with no footpaths on either side, which is used frequently by pedestrians, and is also a very popular cycle route. The restricted width is very unsafe for both pedestrians and cyclists, and the proposed lorry traffic poses a serious risk of injury or fatality at some point."/>
