TRENCHMORE FARM, DRUNGEWICK LANE, DRUNGEWICK LANE, BILLINGSHURST, RH14 ORS

My objection is against HGV Trucks which are already ignoring the width restrictions and weight limits on our once beautiful narrow country lanes causing terrible damage to the edges of the tarmac which of course is costing the council to repair them not to mention the compensation for car tyres and the danger to children on ponies, bicycles, dog walkers, etc. We no longer can rely on police car patrols to

of course is costing the council to repair them not to mention the compensation for car tyres and the danger to children on ponies, bicycles, dog walkers, etc. We no longer can rely on police car patrols to who used to periodically cruise the lanes to deter, The truck drivers of course will not stick to the proposed access route and most are still using ordinary car satnavs instead of HGV satnavs which should be manditory as already proposed by Petworth Council. Its a huge disapointment that in recent years our Council have increased House building to a point that Loxwood is no longer the quiet country village we residents used to enjoy is rapidly becoming joined up to the larger towns surrounding usPlease deny this added vehicle and noise polution and leave us in peace. Thank You
